Why Grant Thornton?

Service quality

Our annual Service Quality Measurement (SQM) survey enables you to rate your satisfaction based on the performance of our engagement teams. We use SQM to assess our past service and to identify areas where we can improve. We also benchmark against other accounting firms for an objective view of how our service compares with that of our competitors.

Ideas and recommendations

Clients appreciate the ideas and recommendations that our professionals provide. That comes from our partners' understanding of clients' industry trends, which provide context for strategic decision making as well as understanding of the issues C-level leaders face.

Access to resources

When accounting, tax or business issues arise, you want easy access to experienced technical experts. At Grant Thornton, regional technical resources provide more direct access and quicker turnaround.

International strength

Grant Thornton International Ltd member firms are located just about anywhere you want to go. Whether you're going to Hong Kong or Houston, Cairo or the Carolinas, the people of Grant Thornton International Ltd member firms provide the high quality service and personalized attention our clients deserve.
