---

### EXPERIENCE

#### The University of Iowa Henry Fund, Equity Research Analyst, IA

01/2024 – Present

- Selected through a competitive application process to manage a student-run \$20 million endowment equity portfolio
- Responsible for industry and company research along with valuation of the financial services sector, totaling 12% of the portfolio
- Forecasted stock valuation using discounted cash flow, economic profit, relative valuation and dividend discount technique
- Presented buy/sell recommendations to the Fund's advisory board consisting of experienced asset management executives

#### TrustBanc Financial Group, Investment Research Analyst, Lagos Nigeria

01/2022 – 08/2023

- Conducted comprehensive firm valuation of publicly traded tickers within Banking, Consumer Goods, and Industrial Goods sectors, delivering buy/sell recommendations to retail and corporate clients leading to amplified industry recognition for the firm
- Handpicked, analyzed, and valued stocks in Banking, Industrial, and Consumer Goods sectors for our Model Portfolio (TEMP), resulting in a remarkable outperformance of the broad-base index by 44.5% as of August 2023, ultimately bolstering client base by 5%
- Executed Investment Banking Operations, involving commercial paper packaging, prospectus review and project evaluation, within a collaborative team, thereby ensuring the firm met its working capital requirement and funding needs for special purpose vehicle projects
- Produced 100,000+ words in comprehensive daily, weekly, monthly, quarterly, and yearly market reports covering Money market, Fixed income, Equities and FX markets, informing clients of market pulse and potential entry opportunities
- Designed a comprehensive one-page daily Capital Market report with interactive, high-quality infographics, significantly cutting report delivery time by 50% whilst ensuring timely and accurate updates on market performance for better-informed decisions

#### Pine Analytical, Data Analytics Intern, McKinney Texas

08/2020 – 09/2020

- Utilized Tableau to extract insights from an attrition dataset, emphasizing data visualization techniques to enhance clarity and facilitate informed decision-making
- Acquired and effectively applied machine learning algorithms for data training and testing using Python programming, whilst optimizing Tableau for data analysis and visualization, providing effective solutions to real business challenges.

#### National Association of Banking and Finance Student, Treasury Controller, Lagos Nigeria

01/2019 – 09/2021

- Managed departmental funds with oversight of financial reporting, revenue management (collecting student fees, departmental levies, and other revenue sources from over 1500 students), and expenditure management (authorizing and monitoring expenses) to ensure financial transparency, accuracy, and accountability.
  - Initiated and led the transition from manual to digital fee collection, implementing a robust system to mitigate errors, omissions, commissions, and fraud in financial transactions related to student fees and departmental levies
-
