

Satellite Workshops on 22 (Friday), August 2014

The four satellite workshops (the satellite conference is called Workshop A) will take place on 22 (Friday), August 2014 after the SAET Conference. Anybody is welcome. Workshops A and D are more formal than the other two, and the program of the conference will be available soon.

Conference (Workshop A): "Normative economics from the Traditional and Nontraditional views" organized by Masao Ogaki (Keio University), Toyotaka Sakai (Keio University), and hosted by *Japanese Economic Review*. It will take place at Keio University in Tokyo.

Workshop B: "Game Theory and Applications", organized by Yukihiro Funaki (Waseda University) and Hans Peters, (University of Maastricht). This will take place at Waseda University.

Workshop C: "Foundational Issues in Economics and Game Theory", organized by J. Jude Kline (University of Queensland) and Chih Chang (Tsing Hua University)). This will take place at Waseda University.

Workshop D: "Recent developments on geometric and algebraic methods in Economics" organized by Simona Settepanella, Hiroaki Terao, Masahiko Yoshinaga and Makoto Nishibe (Hokkaido University). This will take place at Hokkaido University.

Workshops B and C emphasize informal discussions and exchanges of opinions. We will recruit some speakers during the SAET conference. However, if you are keen in providing something to be discussed, please contact one of the organizers.
